

FREE TRAINING FOR

Certified Logistics Technician (CLT) Credential

Goodwin College

211 Riverside Drive
East Hartford, CT 06118

The CBIA Education Foundation received a grant from the **Workforce Solutions Collaborative of Metro Hartford** to support entry-level education/training and career development in the growing Transportation, Distribution and Logistics industry. Fifteen unemployed or underemployed residents of the greater Hartford area will be selected for the summer 2015 course at Goodwin College. Come learn about the CLT credential, program eligibility requirements, and application process.

BMM125—The Certified Logistics Technician (CLT) Credential

3 CREDITS | Starts Monday, Sept. 14

Goodwin College's three-credit Certified Logistics Technician (CLT) program covers nationally validated skills required for supply chain and logistics. The program is focused on training front line employees who work in factories, warehouses, transporters, and distribution centers. Students will be credentialed by the Manufacturing Skill Standards Council (MSSC) as a Certified Logistics Associate (CLA) and as a Certified Logistics Technician.

Certified Logistics Associate (CLA)

- ▶ Global supply chain logistics life cycle
- ▶ Logistics environment
- ▶ Materials handling equipment
- ▶ Safety principles
- ▶ Safe material handling and equipment operation
- ▶ Quality control principles
- ▶ Workplace communications
- ▶ Teamwork and workplace behavior to solve problems
- ▶ Using computers

Certified Logistics Technician (CLT)

- ▶ Product receiving
- ▶ Product storage
- ▶ Order processing
- ▶ Packaging and shipment
- ▶ Inventory control
- ▶ Safe handling of hazmat materials
- ▶ Evaluation of transportation modes
- ▶ Dispatch and tracking
- ▶ Measurements and metric conversions

Students who successfully complete the modules will earn their CLT credentials from MSSC. Earning the CLT credential allows the award of three college credits to be applied to an associate degree in Supply Chain and Logistics.
